

SUPPLIER ONBOARDING

Selling to Container Connect USA

Container Connect USA sells and delivers shipping containers in 30+ metro markets nationwide, shipping from 40+ partner terminals. Our customers order online and **pay in full before we ever request a release** — which means every order we bring you is a real, funded order. This sheet is what we buy, how ordering works, and what we need from you.

What we buy

New one-trip	40' high cube · 40' four-door high cube · 20' — tan, clean, wind & water tight
Used	40' and 20' wind & water tight — dry, solid floors, doors open and lock
Accessories	Lock boxes, shelving, vents, ramps, lighting and fit-out products (dropship welcome)

How ordering works

- **Per-order releases** against your live inventory: order confirmed and paid by our customer, then we request release from the depot that holds the unit.
- Release lead time runs about **one week**; delivery is scheduled once the unit is released and assigned.
- As volume builds in a region, we are ready to discuss **standing allocation and volume pricing**.

How we pay

- **Promptly and in full**, on the terms agreed in writing — ACH by default, wire when a same-day release requires confirmed funds.
- One named contact on our side for every order; our paperwork always carries the order number, depot, and unit details.
- We honor the prices we are quoted for an order. We do not renegotiate after the fact, and we expect quoted inventory to be as described.

What we need from you

- **Current inventory and wholesale price list by depot** — and how often it updates.
- **Yard / pickup addresses** for each location our haulers will use, plus release procedures and hours.
- **Release lead times** and any minimums or restrictions by location.
- **A named contact** (name, email, phone) who handles our orders and answers.

Getting started: send your inventory list and depot addresses to conexnesales@gmail.com. Tell us your strongest regions and we will point our next market launches at them. Questions: **(401) 702-4391** · containerconnectusa.com.
